PROJECTS

- Personal Planner January 2022 - Present
- Designed an app that invites users to enter their yearly, monthly and weekly, goals and records their progress in reaching those goals.
 - Languages used: javascript and html
- Snkr Lust March 2020 - December 2021
- A sneaker reselling brand, which generated \$12,343 while in high-school.
 - Instagram @Snkr_Lust

TECHNICAL SKILLS

Languages: Java, Javascript, and C++

WORK & LEADERSHIP EXPERIENCE

- Dunkin Donuts
- Worked as a Barista and a cashier, although both positions are different, same skills still apply. When customers walked in, I always had a smile on and tried giving them the best experience because "America Runs On Dunkins."
- Lab Medical Inc
- At Lab Medical, I worked as a machine operator, running the machines and making sure that all the tools were made properly. Success depends on how well we communicate with each other.
